

## Building Component Manufacturers Conference

### Machinery, Trailer and Large Equipment

#### Move-in Schedule

Again this year we will be using a targeted move-in schedule to aid in getting everyone in, in a timely schedule. Attached is a projected schedule to unload, starting from the front of the hall to the back. We are anticipating an 8:00 a.m. start for unloading with plans to mark the floor and laying large area carpets on Sunday. In the event we are not able to work in the building on Sunday, we will delay the start of unloading to allow us to mark the floor properly.

At this time we are not planning on using a marshaling yard to hold the trailers prior to unloading. However trailers that show up early that we cannot accommodate holding at the Convention Center will be sent to the marshaling yard until we are able to unload them.

It would be very helpful to all of us if you can copy the cell phone numbers of your driver(s) and give them to me at the Convention Center. This would allow me to contact them and get them into the building when we are ready to unload.

We will be doing something new this year to help all the exhibits and expand the quality of services we provide to you. This year we will have two Exhibitor Floor Supervisors on the floor during exhibitor move-in hours. They each will be responsible for ½ the show floor and will be available to help you with your service needs from us. They will be easily identified with their George E. Fern logo attire and will get around to introduce themselves to you.

I look forward to working with everyone again this year and will see you in about a month.

Jim Pruitt

8:00 a.m. – 11:00 a.m.

Truswal Systems  
Intelligent  
Cargotec  
Lakeside Trailer  
Sellick  
Mango Tech  
Klaisler  
Lacey-Harmer

2:00 p.m. – 6:00 p.m.
